The individual purchasing the tokens is responsible for the decisions of buying and selling tokens, the outcomes resulting from these decisions, the transactions they carry out, and all risks that may arise from these transactions.

Welcome to Wolcan!

Before you lies a unique universe where gods from different mythologies fiercely compete for honor and glory. Here, we aim to provide unforgettable moments and thrilling adventures for every player. Wolcan invites you to showcase your skills in both PVP and PVE modes, test your strategies, and challenge your rivals.

This world is not only a stage for displays of power; it also offers players the opportunity to expand their collections and create their own epics. Here, you'll find the chance to earn in-game values while showcasing your skills and developing new strategies with your original cards.

Wolcan welcomes you to both competitive battlefields and a platform where you can express your creativity. Dive into the adventure, set your strategy, and carve out your place in this mythological world!

The Game

The Game

Welcome to the realm of the gods, Wolcan. This is a mesmerizing world hosting legendary battles of gods from various mythologies in pursuit of honor and glory. In this boundless universe, our goal is to offer every user an unforgettable experience that rivals the epic tales of heroes, filled with entertainment and excitement at its peak.

Wolcan provides a platform where players can showcase their skills in PVP (Player vs. Player) and PVE (Player vs. Environment) modes, testing their strategies and strengths. In this unique battlefield, every move, strategy, and encounter has its own story. But Wolcan is not just about power and strategy; players also have the opportunity to gain practical benefits through trading cards and creating valuable collections.

Each card carries the power, wisdom, and spirit of a mythological god. Players have the chance to write their own epics by collecting and trading these cards. In Wolcan, every player's journey is unique, and each encounter lays the groundwork for the birth of a new legend.

Everyone stepping into the world of Wolcan becomes part of not just a game but also a mythological adventure. Here, the power of the gods is at your fingertips, and every choice shapes your destiny. Join us on this enchanting journey and create your own legend.

Wolcan Universe

In the midst of a universal battle, gods and mortals clash over an incredibly powerful crystal energy known as Wolcan.

In the Wolcan universe, the most powerful gods of mythology come together to vie for dominance over the cosmos. In this epic struggle, each god utilizes their superior powers and strategies in an attempt to achieve victory. **Zeus** decimates his enemies with the ferocity of thunder and lightning; **Ares** challenges his opponents with courage and unmatched martial skill on the battlefield. **Poseidon** brings the power of the deep seas and oceans to battle, unleashing the healing spirit of water. **Doris**, on the other hand, bewilders her adversaries with the mystical power of water and fish through her enchantments.

This universal conflict represents a battle that goes beyond mere physical strength. Intelligence, strategy, and loyalty play critical roles in winning this war. Gods must cleverly combine their powers and allies to gain superiority and seize control of Wolcan. However, in this sacred battle, not only friendships but also intrigues and treacherous schemes prevail.

Zeus

Zeus: Ruler of the Sky

The god of the sky and lightning, Zeus, symbolizes unmatched power and authority in the game. Players wielding the Zeus card can dodge and shield against their opponents' strikes. Zeus's power is particularly effective against large groups of enemies and can instantly alter the course of battle when used strategically.

Zeus is not only a powerful card but also a central figure in the Wolcan universe. At the heart of the game, interactions between Zeus and other gods offer players deep narrative storytelling. This elevates the game beyond mere strategic combat, providing a rich mythological experience as well.

Ares

Ares: God of War

The god of courage and the art of war, Ares, represents aggressive and direct attack strategies in the game. The Ares card grants players the power to tear through opponent defenses and deal significant damage in a short amount of time. Ares's warrior spirit is especially effective when played against a single powerful enemy.

Ares is not just a formidable warrior but also a complex character. At the heart of the game, Ares's relationships with other gods, particularly the tense dynamics with gods of peace and diplomacy, add a deep layer of story. These interactions offer players the opportunity to explore the gods' personalities, motivations, and the broader mythology of the universe.

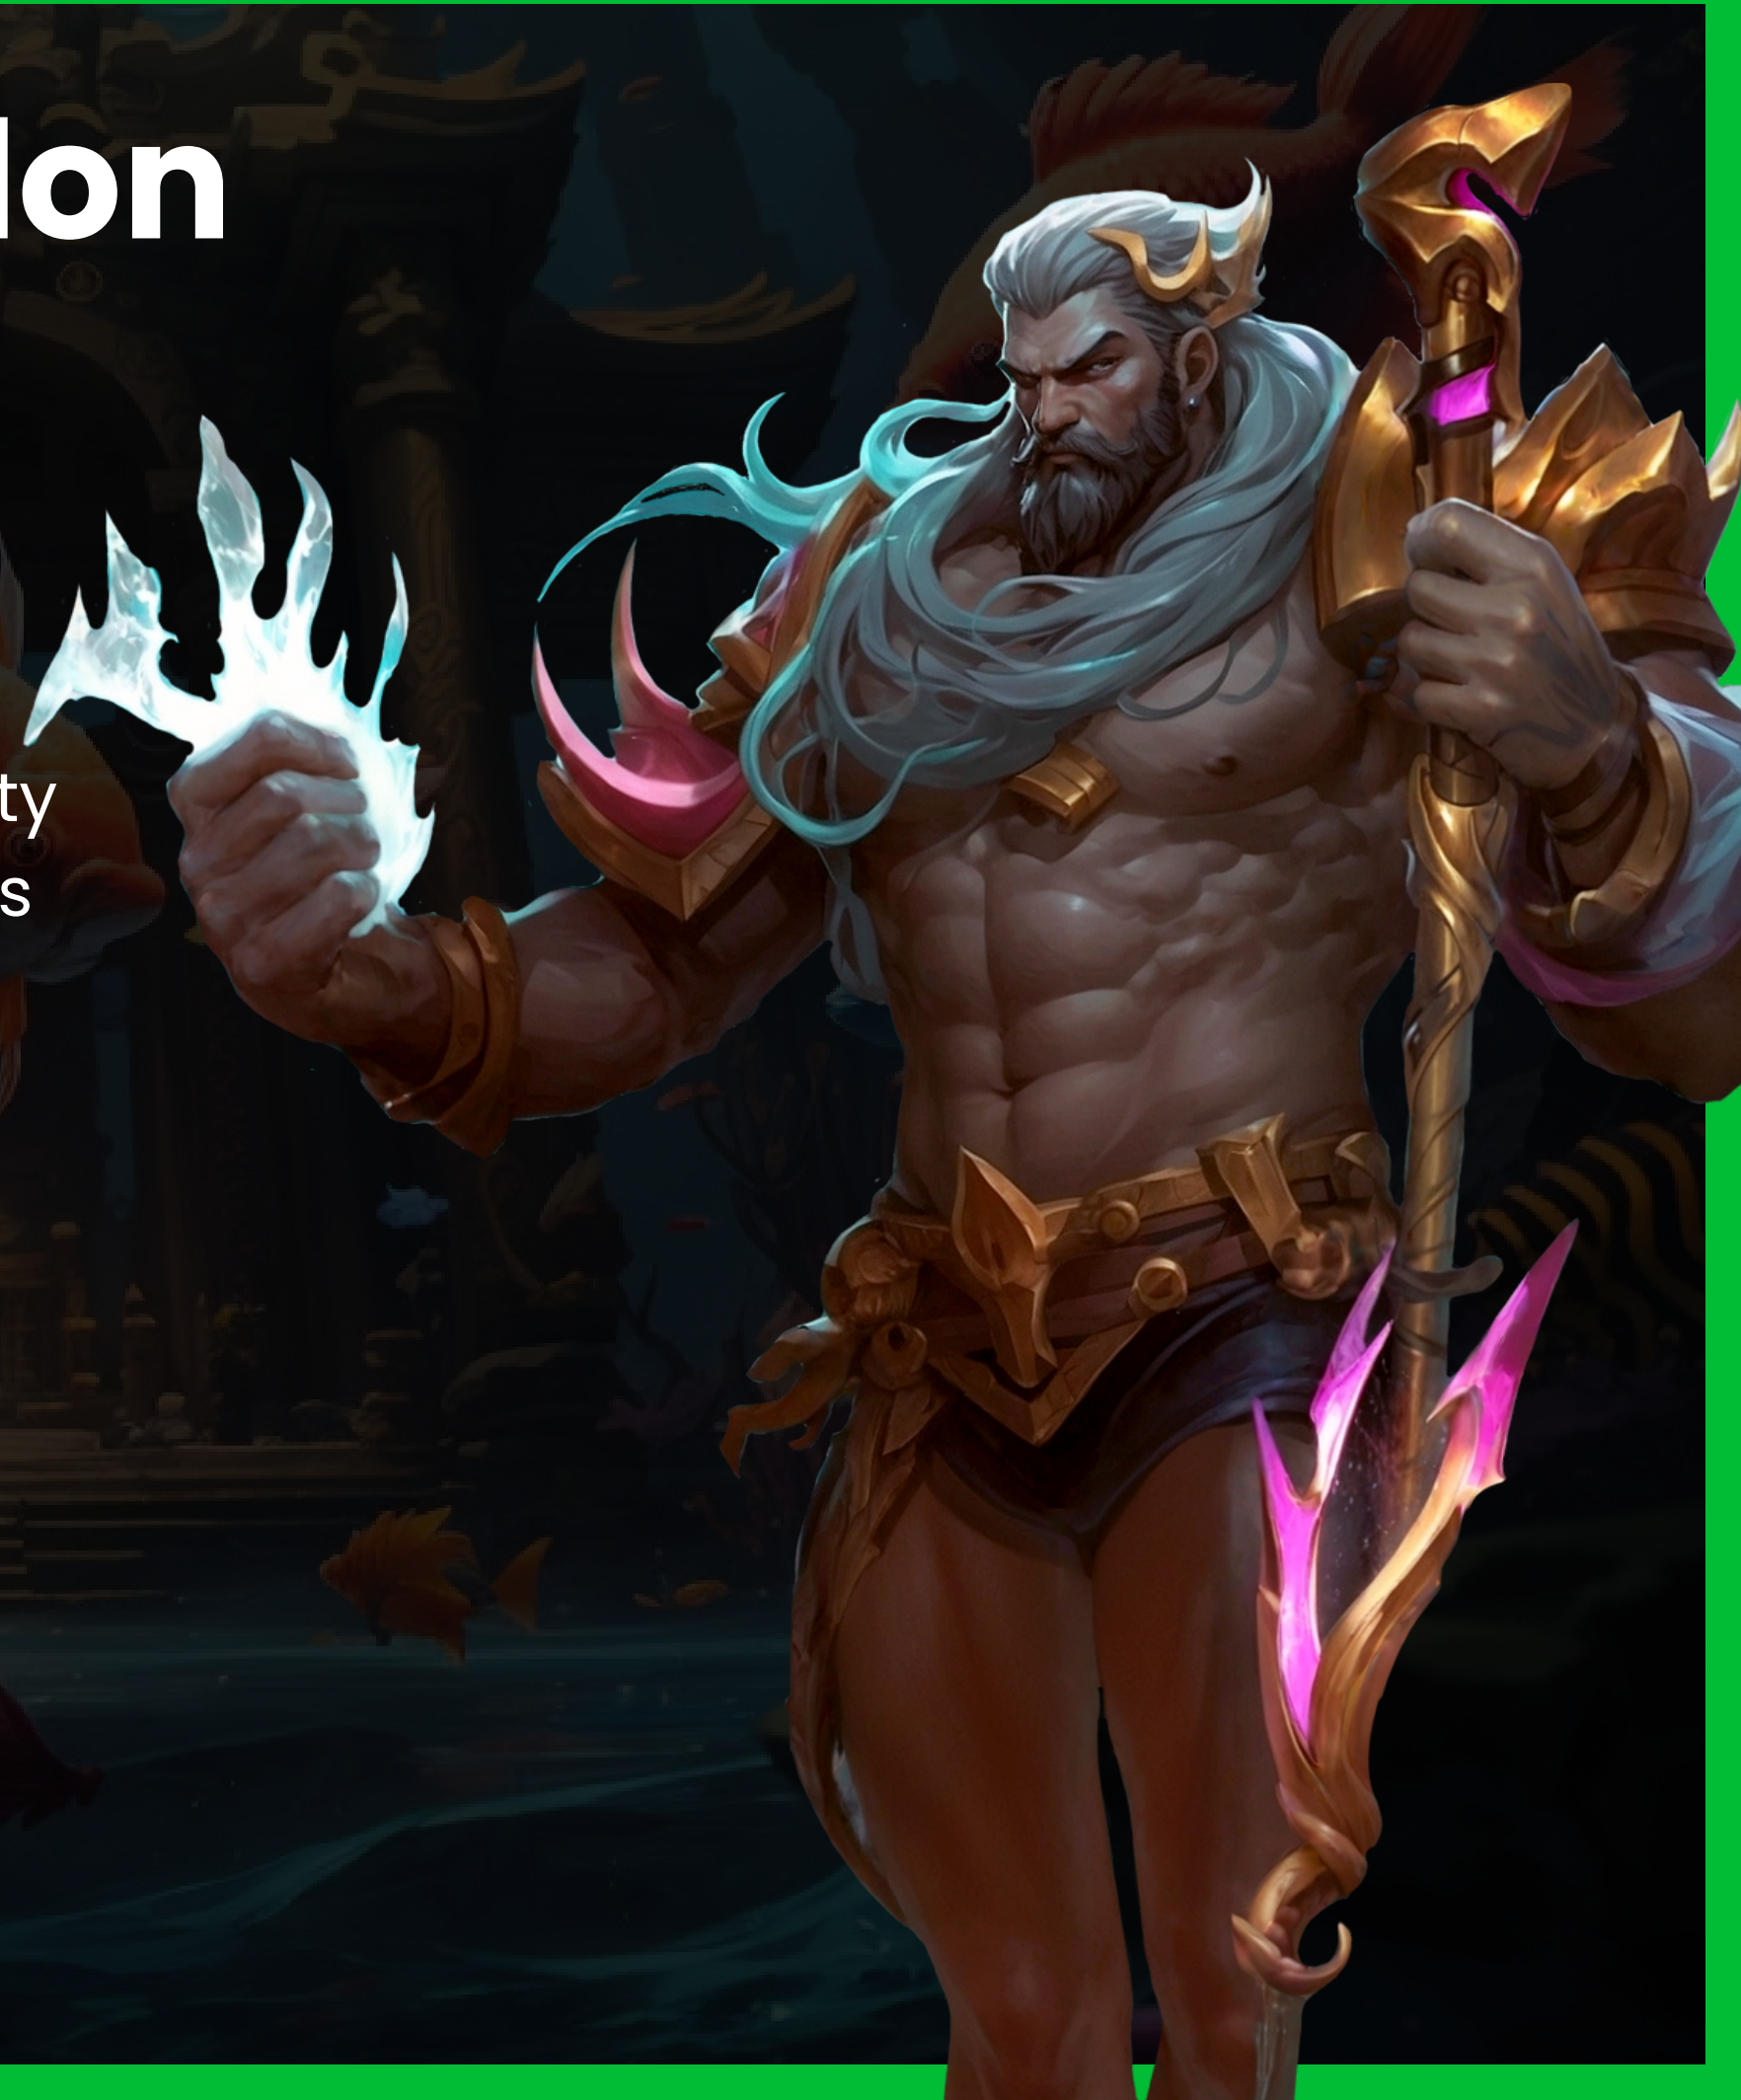

Poseidon

Poseidon: Lord of the Oceans

Poseidon is commonly known as the ruler of the seas and oceans, but his powers are not limited to controlling destructive and powerful waves. This mighty god also masters the healing and rejuvenating powers of water.

When the Poseidon card is used, players can not only defeat their opponents but also support their allies by healing their wounds on the battlefield and rejuvenating their strength. This adds depth to Poseidon's battle strategy, highlighting him not just as an aggressive force but also as a protector that enhances the team's resilience and sustainability.

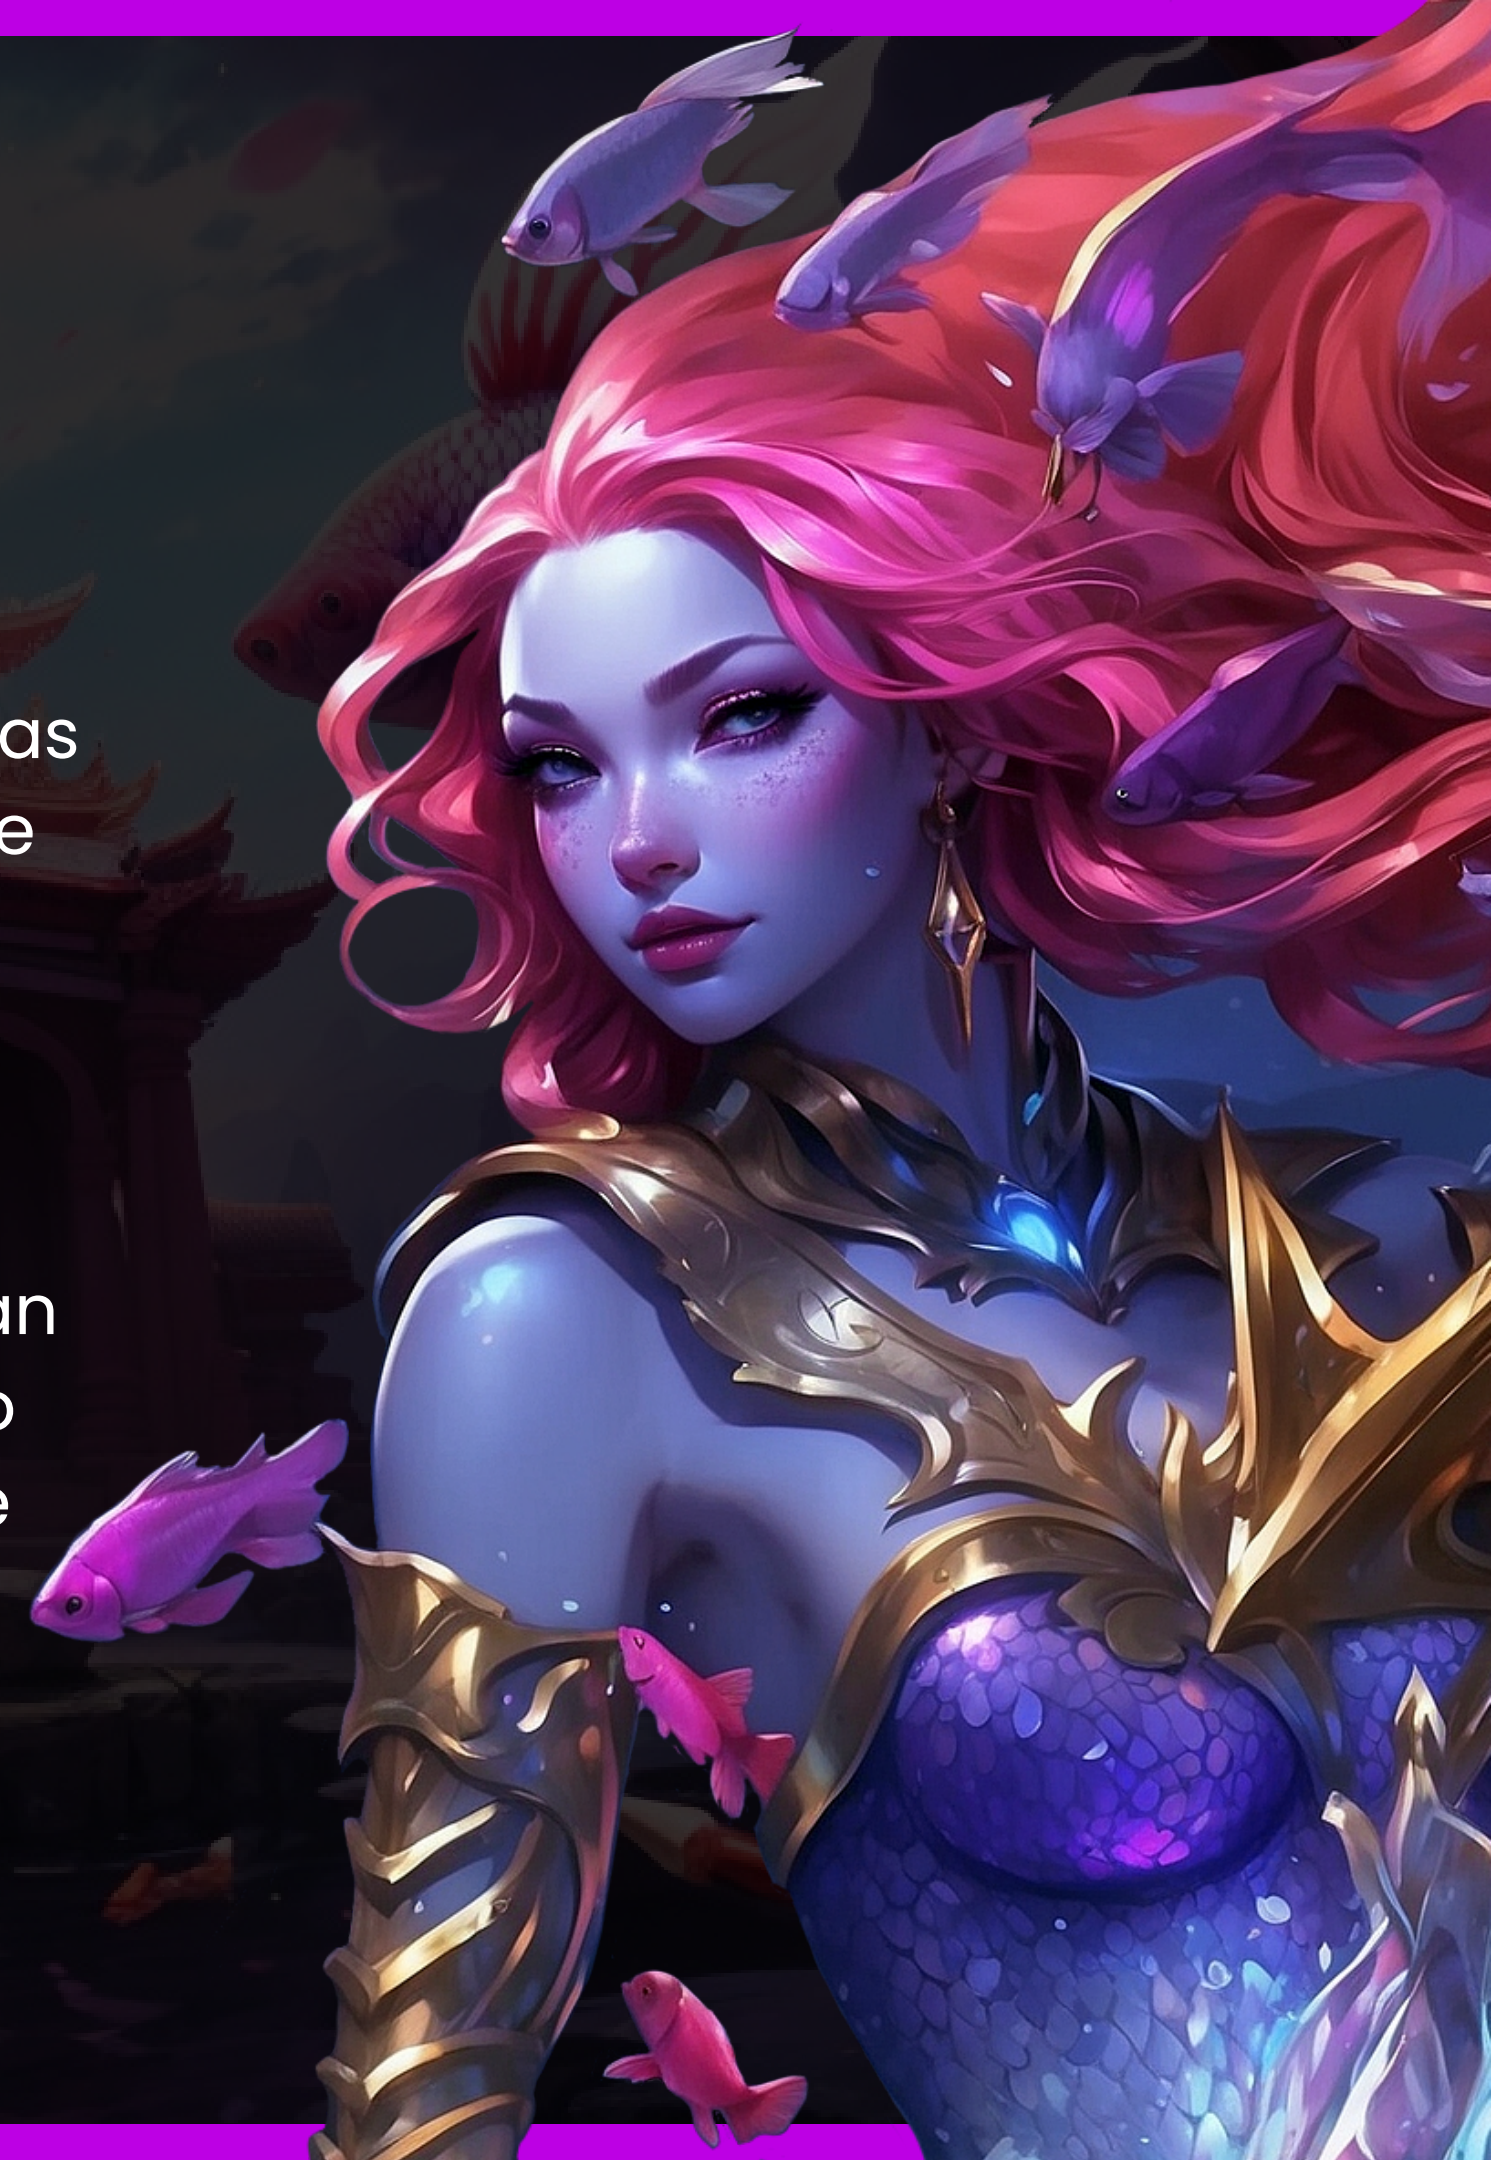

Doris

Doris: Mystic Sorceress of the Waters

Doris is the mystic sorceress of the waters, emerging from the depths of the Wolcan universe. This graceful goddess is known as the master of the mysterious powers hidden in the depths of the seas and waters. Her abilities transform the battlefield into a mystic domain, overturning enemy strategies and providing unexpected advantages.

Doris's magical powers can change the course of battle; she can confound enemies by altering the form of water, create a fog to protect allies, or manipulate waters to control opponents. In the storyline of the game, Doris's mystical interactions with other gods offer players the opportunity to explore the depths of the Wolcan universe and the potency of magic.

Priaaaaamm!

Summon Priam.

4

Battlecry

Give **+1 attack damage** to an ally for this turn.

1

Arrow Rain

Choose a lane. Deal 1 to a random enemy in that lane, repeat 3 times.

God's Trap

You can disguise this card as any card of your choice and the character attacking this card loses 3 power

2

Snatch

Steal a card from the opponent.

3

Volcan Ecosystem

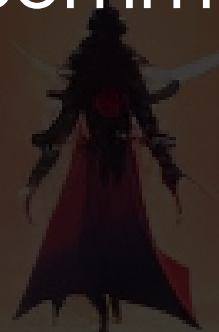

Wolcan Ecosystem

This is a world inspired by ancient mythologies, where card battles reign supreme. However, Wolcan is not just about game mechanics; it also offers a rich ecosystem featuring various functionalities.

With the NFT Marketplace, players can buy and sell rare cards, earn rewards through the Play to Earn feature by playing the game, and design their own cards with the Create to Earn feature, making them a part of the game. These features not only allow players to enjoy the game but also provide them with the opportunity to use their creativity to generate economic value.

The dynamics within the game elevate Wolcan beyond just being a game, offering players the experience of being part of an active community and a vibrant economy.

Wolcan NFT Marketplace

The Wolcan NFT Marketplace provides a platform for players to expand their collections, buy and sell unique cards, and actively participate in the in-game economy. This marketplace highlights the value and rarity of each card, enabling players to create strategic collections. Additionally, it allows players to introduce their own created cards to the community for approval and circulation, thereby encouraging and rewarding their creativity.

Within the Wolcan ecosystem, players can showcase their creativity by designing their own unique cards and presenting them to the community. If these cards are approved by the community, they are rewarded with WLC tokens and gain the right to participate in the in-game ecosystem. This not only allows players to contribute to the universe of the game but also rewards their creativity with tangible value.

Play-to-Earn Model in the Wolcan Ecosystem

Wolcan offers its players a unique Play-to-Earn mechanism, directly rewarding in-game achievements. This system is based on specific criteria such as victories, completion of missions, and success in competitive rankings. As players progress in the game using strategic thinking and skills, they are rewarded with WLC Tokens. These rewards enhance players' participation in the in-game economy and encourage further exploration and engagement with greater challenges within the Wolcan universe.

This mechanism elevates Wolcan beyond just a card game, offering players the opportunity to develop their skills and celebrate their achievements with tangible rewards. Each victory, completed mission, and participation reinforces players' reputations and accomplishments in the Wolcan universe, while also fostering deeper interaction and engagement within the game's rich world. The Play-to-Earn mechanism provides gamers with the opportunity to maximize value from every moment of the game and crown their in-game successes with rewards.

Reward Your Creativity in Wolcan: Create & Earn

Create & Earn in Wolcan

Wolcan offers players a unique opportunity: the chance to design their own original characters, gods, or abilities and present these creations to the community. This creative process not only directly contributes to the dynamic ecosystem of the game but also opens up a space for players to showcase their creativity. Each new work integrated into the game with the necessary approval from the community enriches the diversity and richness of the Wolcan universe and allows it to be sold on the NFT market.

This Create & Earn mechanism transforms Wolcan beyond just a game, turning it into an interactive platform that grows with the contributions of its players. Allowing players to make their creativity a part of the game provides personal satisfaction and enables the continuous renewal and expansion of the Wolcan universe. Thus, Wolcan becomes a living ecosystem shaped by the contributions of every player.

\$WLC Use Cases

Player Rewards

\$WLC enables players to participate in the in-game economy and earn through the Play-to-Earn mechanism as they play.

Governance Participation

\$WLC allows players to participate in governance and decision-making processes with their designed cards.

Card Trading

\$WLC is used for in-game card trading, allowing players to sell their own created cards after community approval.

Staking Mechanism

\$WLC enables users to lock their tokens to gain advantages and rewards.

Wolcan Community: The Heart of the Game

At the core of Wolcan lies our interaction with our players. Thus, we view our community not merely as a part of the game but also as the architects of the Wolcan universe. Every organized competition and event allows the universe to expand and become more vibrant, offering our players the opportunity to have a say in the direction of the game. Through in-game events and reward programs, we also aim to bring our users together, enabling them to connect with each other and form a strong community.

This mutual interaction becomes a tangible step with the proposals you can submit to Wolcan. Every member of our community, thanks to the tools and platforms we provide, can freely express their creativity and contribute to the Wolcan universe. In this process, we constantly seek new ways to enrich our players' experiences and make them feel valued. The Wolcan community is not only the heart of our game but also the primary source of its progress and innovation.
